SK Dulal Islam

Java Backend Developer | Spring Boot | Full-Stack Engineer

Paschim Medinipur, West Bengal – 721260

+91-7364821623 | skdulalislam1@gmail.com | LinkedIn | GitHub | Portfolio

Summary

Java and Spring Boot backend developer with full-stack experience building secured REST APIs, relational data models, and React frontends. Currently a Full Stack Developer Intern at Internmo, working on a feature-based Hospital Management System backend. Comfortable owning features end-to-end from database design through JWT-secured APIs to deployed interfaces.

Education

Jalpaiguri Government Engineering College (JGEC) **2023 – 2027**
*B.Tech in Information Technology — **CGPA: 8.0*** *Jalpaiguri, West Bengal*

Mohishageria A M A High Madrasah (HS) **2020 – 2022**
*Higher Secondary (WBCHSE) — **Percentage: 90%*** *Keshpur, West Bengal*

Experience

Internmo **July 2026 – Present**
Full Stack Developer Intern *Remote*

- Contributing to **MedCore**, a feature-based Hospital Management System, developing backend services with **Java, Spring Boot, Spring Security, JPA/Hibernate, and PostgreSQL**.
- Building secure REST APIs with **JWT, RBAC, DTO/Mapper patterns, validation, global exception handling, pagination, and optimized database queries**.
- Working with **Redis** for caching and session management, along with **API rate limiting**; implementing **WebSocket-based notifications** and asynchronous processing.
- Containerizing services with **Docker/Docker Compose**, using **Nginx** and **GitHub Actions** for CI/CD, with **AWS EC2/RDS/S3** and **Sentry** for infrastructure and monitoring.

Projects

ShopLy — Multi-Vendor E-Commerce Platform | *Spring Boot, React, Redux Toolkit, MySQL, JWT*

- Architected a multi-vendor platform with Customer, Seller, and Admin modules — isolated access control, seller registration and admin approval pipeline secured via JWT and RBAC.
- Built REST APIs covering auth, product catalog, cart, checkout, orders, and seller management; integrated Razorpay payments and Cloudinary uploads. GitHub | Live Demo

EduZen — Coaching Centre Management System | *Spring Boot, React, MySQL, JWT*

- Built a full-stack coaching management system with Admin and Student modules; implemented JWT auth, Spring Security, fee tracking, and multi-step approval workflows.
- Designed RESTful APIs documented via Swagger UI; integrated React frontend with Spring Boot backend using Spring Data JPA and Hibernate ORM. GitHub | Live Demo

URL Shortener | *Java 21, Spring Boot, Spring Security, JWT, MySQL, Swagger*

- Built a secure URL shortening backend with JWT authentication, refresh tokens, and ownership-based authorization; implemented custom aliases, click tracking, URL expiration, and paginated search with global exception handling and Swagger/OpenAPI. GitHub

Technical Skills

- **Languages:** Java, C, C++, JavaScript, TypeScript, SQL
- **Backend:** REST API Design, DTOs, Validation, Global Exception Handling, WebSocket, Swagger/OpenAPI
- **Security & Performance:** JWT, RBAC, Redis Caching, Rate Limiting, Pagination, Database Indexing, Query Optimization
- **Database:** MySQL, PostgreSQL, JPA/Hibernate, Database Design
- **Frontend:** React.js, Next.js, Redux Toolkit, TanStack Query, Zustand, Tailwind CSS
- **DevOps & Cloud:** Docker, Docker Compose, Nginx, GitHub Actions, CI/CD, AWS (EC2, RDS, S3), Sentry
- **Tools:** Git, GitHub, Maven, Postman, IntelliJ IDEA
- **Core CS:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Achievements

- Secured **5th place** in CSS Battle at Sristi 2025, JGEC's annual techno-cultural fest.

Extracurricular

Coders Club DnC — JGEC **2023 – Present**
Active Member

- Participate in coding contests, peer code reviews, and technical workshops; contributing to a collaborative problem-solving culture.
